# DATA ODYSSEY

"This database is designed for an e-commerce platform that connects sellers and customers through an online marketplace. It contains essential datasets related to orders, products, customers,and ordered items.."

SQL Best-Seller Hunt:

The marketplace is on a mission—to **reward the top 5 best-selling products**. But which products truly dominate the charts?

Your task: Write a query to find the **top 5 products** based on **total quantity sold**. Can you uncover the champions of the marketplace? 🏆🛍️📊

```
+-------------+----------------+
| name        | total_quantity |
+-------------+----------------+
| T-shirt     |             15 |
| Pants       |             14 |
| Pull overs  |             14 |
| Jeans       |             14 |
| Gaming Chair |            14 |
+-------------+----------------+
